Innovate

Turning ideas into success or getting a new business off the ground takes hard work and dedication. Basel Area Business & Innovation is your connection to professional resources within a vibrant ecosystem designed to nurture innovation.

Accelerating business growth

We provide tailored entrepreneurial support at every step of the founding process in the Basel Area, one of the leading life sciences hubs globally and an emerging hub for startups. From courses, seminars and workshops to support material, our services are here to help you launch a new company or business idea. With our bespoke Venture Mentoring program, you can turn your innovation into a solid business case. As part of a guided process, you'll receive an assessment and concrete recommendations from industry insiders and experts. This program, as well as our three accelerators in Therapeutic Innovation, Healthcare Innovation and Industrial Transformation, are oriented towards entrepreneurs and high-tech SMEs. We bring together experts, companies and entrepreneurs with partners, collaborators and funding sources to help nurture innovation and accelerate business growth.

Therapeutic Innovation

The world's pharma giants, along with many promising biotechs, world-class research institutions, top-tier investors and venture funds, call the Basel Area their home. This tightly interwoven environment provides the ideal launch pad for the creation of new biopharma ventures.

BASELAUNCH

The incubator and accelerator helps scientists and entrepreneurs launch exceptional biotech companies. With the support of leading pharma companies and venture funds, it serves as a growth platform for early-stage ventures developing cutting-edge therapeutics. BaseLaunch helps build companies from inception through to Series A funding, providing direct funding of up to CHF 500,000 per company and supporting all aspects of business development.

Healthcare Innovation

Shaping the future of health means making the best use of digital technologies and fostering a strong collaborative environment for a future rooted in precision medicine and personalized healthcare. The Basel Area has a strong healthcare ecosystem with numerous established and world-leading medtech, biopharma and diagnostics companies and research institutes.

DAYONE

DayOne is the epicenter for pioneering healthtech ventures. The initiative propels startups and supports healthcare organizations and companies in embracing external innovation. The DayOne Accelerator, powered by global partners, has catalyzed over 70 ventures in digital health and medtech. Events like BOOM Summit and Open Mic - Next in Health unite the community and foster the innovative spirit. Anchored in the Basel Area, DayOne advocates for collaborative innovation within a vibrant ecosystem.

Industrial Transformation

In today's ever-changing technological world, manufacturing companies are continuously challenged to transform themselves in order to adapt to the evolving needs of their customers. This requires new core skills and capabilities. The Basel Area offers a powerful ecosystem for tackling the transition of the manufacturing industry towards smart technologies and sustainable production methods.

|4CHALLENGE

The ultimate goal of the program is to enable a thriving production technology and industrial ecosystem. Focused on innovative solutions, new approaches and next-generation products or services for industrial transformation, the i4Challenge offers a platform to help SMEs, startups and Industry 5.0 projects promote their product or service. Participants will gain access to partners, mentors, collaborators and potential customers.
